

## TEMPERATURE MONITORING PROGRAM

for

### Air Conditioning, Refrigeration, Ice Machines

### Overview and Benefits

- **Protect expensive product spoilage.**
- **Don't run out of ice.**
- **Water damage protection from clogged A/C drains with optional wet sensor.**
- **10% Discount on repairs for monitored equipment.**
- **Priority Dispatch 24/7. You are given priority service first.**
- **Up to 4 sensors per monitoring system. Mix & match sensors to fit the need.**
- **WiFi or hard wired to your internet adapter. Cabling extra.**
- **No equipment to purchase or repair. It's all included in a low monthly cost.**
- **\$2,000 product replacement guarantee (excludes reach in coolers).\***

The system alerts Modern Air's Service Department when a temperature exceeds set limits or a water leak condition occurs. The system can also alert you if desired. You are called by phone to verify the condition or to authorize a service call. Pre-authorization can be set up for safer and faster service. ACH payment is required for this service.

Low cost protection options:

- |  |                    |
